

# HOW TO TRAVEL TO & IN MOROCCO?

By Moroccan National Company: Royal Air Morocco  
Or by plenty of international airlines

It's an easily accessible destination.  
The city has an international airport with direct scheduled flights coming from major cities in Europe as well as many charter flights arriving from all over Europe. If you are flying from the US, Canada, Asia or elsewhere, you'll have to change flight in Casablanca (an internal flight takes just an hour and prices are competitive) or use public transport to reach Agadir.
